Animator / VFX Artist job description

Animator / VFX Artist

We're looking for a 2D animator and VFX artist with at least 3 years of experience using Adobe After Effects, Photoshop, Illustrator and Premiere. Cinema 4D and Blender experience preferable.

Job responsibilities

Creating motion graphics and animations.

With your expert skill in After Effects and Illustrator, you'll be able to create 2D animations to client specifications, whilst also being able to design your own concepts and create work from scratch. You'll be happy to collaborate with our team and share ideas that can take the project to the next level.

Work to deadlines

Much of our work is done under strict client deadlines. Candidates should thrive under this and keep their eye for detail under pressure.

Flexibility

Our team are often working on multiple projects at a time. We need somebody that's happy to help and assist with edits in Premiere, and other office tasks when needed.

VFX

If you're comfortable creating VFX that could take our video work to the next level. We want to hear from you - this could include creating realistic visual effects using particles, animation, sprites, materials, and more.
